

RAG Pipeline Test Document

This lightweight PDF is for checking the full RAG pipeline in the visualizer.

Key facts:

- Loader reads this PDF and converts pages into LangChain Documents.
- Chunking splits the document into smaller passages.
- FastEmbed creates local embeddings without an API key.
- FAISS or Chroma stores vectors locally for retrieval.
- A query such as 'What does FastEmbed do?' should retrieve this passage.

Vietnamese note:

Tài liệu này dùng để test nhanh pipeline RAG: load PDF, chia chunk, embedding, lưu vector, retrieval và generation.
